PART B – OTHER INFORMATION

1. LISTING AND ADMISSION TO TRADING

(a) Listing and Admission to Trading:

MPS Capital Services Banca per le Imprese S.p.A. (“MPSCS”) undertakes to apply for the Securities to be admitted to trading on the systematic internalization system (“SIS”) denominated “De@lDone Trading” (“DDT”), exclusively managed by MPSCS.

MPSCS shall be acting on DDT as sole specialist (negoziatore unico), as regulated by the applicable rules and regulations (il “Regolamento”) published on the website www.mpscapitalservices.it. For an amount of Securities equal to the Placed Amount (as defined below), MPSCS shall be required to provide bid/ask quotes to be determined as follows.

The bid/ask quotes provided by MPSCS shall reflect the prevailing market conditions as of the time of the quotes. In particular, in respect of the creditworthiness of the Issuer, the 3 months EURIBOR will be increased by a spread determined as the spread of some specific Issuer’s senior credit default swap plus 0.15 per cent. The quotes so determined, in case of ask quotes (purchase by the investor), shall be increased by a margin of up to a maximum of 0.35 per cent.; in case of bid quotes (sale by the investor), they shall be reduced by a margin of up to a maximum of 0.90 per cent.

MPSCS accepts responsibility for the information in this paragraph 1.(a).

For the purposes hereof “**Placed Amount**” means the product of (x) the Calculation Amount and (y) the number of Securities effectively placed by the Distributor at the end of the Offering Period as notified by MPSCS to Barclays Bank PLC.

(b) Estimate of total expenses related to admission to trading: Not Applicable

2. RATINGS

Ratings: The Securities have not been individually rated.

3. **INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUER/OFFER**

Save as disclosed below and save as discussed in risk factor 10 (*Risks associated with discretionary powers of the Issuer and the Determination Agent, including in relation to the Issuer's hedging arrangements*) and 13 (*Risks associated with conflicts of interest*) of the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Securities has an interest material to the offer.

MPSCS and the Banca Monte dei Paschi di Siena S.p.A. (the “**Distributor**”) are, with respect to the offer of the Securities, in a position of conflict of interest with the investors as they are part of the same banking group (the Montepaschi Banking Group) and they have an economic interest in the distribution of the Securities. MPSCS and the Distributor shall receive from the Issuer, respectively, the management fee and the selling fee, as specified under paragraph 8.2 (m) below.

MPSCS is also in a position of conflict of interest for the following reasons: it acts as hedging counterparty of the Issuer in relation to the issuance of the Securities; and it shall act as liquidity provider, providing bid/ask quotes for the Securities for the benefit of the holder of the Securities. Also, an application shall be made for the Securities to be admitted to trading on the systematic internalization system (“**SIS**”) denominated “De@lDone Trading” (“**DDT**”), exclusively managed by MPSCS on which MPSCS acts as sole manager (*negoziatore unico*).

MPSCS and the Distributor may engage in business relating to any components of the Underlying Asset, including making loans to equity investments in, or providing investment banking, asset management or other advisory services to the respective sponsor or issuer. In connection with these activities, MPSCS and the Distributor may receive information pertinent to the Underlying Asset(s) or its or their components that MPSCS and the Distributor will not be obliged to divulge.

Section D – Risks		
D.2	Key information on the key risks that are specific to the Issuer	<p>Credit risk: The Issuer is exposed to the risk of suffering loss if any of its customers, clients or market counterparties fails to fulfil its contractual obligations. The Issuer may also suffer loss where the downgrading of an entity's credit rating causes a fall in the value of the Issuer's investment in that entity's financial instruments.</p> <p>Weak or deteriorating economic conditions negatively impact these counterparty and credit-related risks. In recent times, the economic environment in the Issuer's main business markets (being Europe and the United States) has been marked by generally weaker than expected growth, increased unemployment, depressed housing prices, reduced business confidence, rising inflation and contracting GDP. Operations in the Eurozone remain affected by the ongoing sovereign debt crisis, the stresses being exerted on the financial system and the risk that one or more countries exit the Euro. The current absence of a predetermined mechanism for a member state to exit the Euro means that it is not possible to predict the outcome of such an event and to accurately quantify the impact of such event on the Issuer's profitability, liquidity and capital. If some or all of these conditions persist or worsen, they may have a material adverse effect on the Issuer's operations, financial condition and prospects.</p> <p>Liquidity risk: The Issuer is exposed to the risk that it may be unable to meet its obligations as they fall due as a result of a sudden, and potentially protracted, increase in net cash outflows. These outflows could be principally through customer withdrawals, wholesale counterparties removing financing, collateral posting requirements or loan drawdowns.</p>

		<p>Capital risk: The Issuer may be unable to maintain appropriate capital ratios, which could lead to: (i) an inability to support business activity; (ii) a failure to meet regulatory requirements; and/or (iii) credit ratings downgrades. Increased regulatory capital requirements and changes to what constitutes capital may constrain the Issuer's planned activities and could increase costs and contribute to adverse impacts on the Issuer's earnings.</p> <p>Legal and regulatory-related risk: Non-compliance by the Issuer with applicable laws, regulations and codes relevant to the financial services industry could lead to fines, public reprimands, damage to reputation, increased prudential requirements, enforced suspension of operations or, in extreme cases, withdrawal of authorisations to operate.</p> <p>Reputation risk: Reputational damage reduces – directly or indirectly – the attractiveness of the Issuer to stakeholders and may lead to negative publicity, loss of revenue, litigation, regulatory or legislative action, loss of existing or potential client business, reduced workforce morale, and difficulties in recruiting talent. Sustained reputational damage could have a materially negative impact on the Issuer's licence to operate and the value of the Issuer's franchise, which in turn could negatively affect the Issuer's profitability and financial condition.</p>
D.6	<p>Risk warning that investors may lose value of entire investment or part of it</p>	<p>You may lose up to the entire value of your investment in the Securities:</p> <p>Even if the relevant Securities are stated to be repayable at an amount that is equal to or greater than their initial purchase price, you will lose up to the entire value of your investment if the Issuer fails or is otherwise unable to meet its payment obligations.</p> <p>You may also lose the value of your entire investment, or part of it, if:</p> <p>the Underlying Asset performs in such a manner that the redemption amount payable or deliverable to you (whether at maturity or following any early redemption and including after deduction of any applicable taxes and expenses) is less than the initial purchase price;</p> <p>you sell your Securities prior to maturity in the secondary market (if any) at an amount that is less than the initial purchase price;</p> <p>the Securities are redeemed early following the occurrence of an extraordinary event in relation to the Underlying Asset(s), the Issuer, the Issuer's hedging arrangement, the relevant currencies or taxation (such as following an additional disruption event) and the amount you receive on such redemption is less than the initial purchase price; and/or</p> <p>the terms and conditions of the Securities are adjusted (in accordance with the terms and conditions of the Securities) with the result that the redemption amount payable to you and/or the value of the Securities is reduced.</p> <p>Risk of withdrawal of the public offering: In case of a public offer, the Issuer may provide in the Final Terms that it is a condition of the offer that the Issuer may withdraw the offer for reasons beyond its control, such as extraordinary events that in the determination of the Issuer may be prejudicial to the offer. In such circumstances, the offer will be deemed to be null and void. In such case, where you have already paid or delivered subscription monies for the relevant Securities, you will be entitled to reimbursement of such amounts,</p>

	<p>but will not receive any remuneration that may have accrued in the period between their payment or delivery of subscription monies and the reimbursement of the Securities.</p> <p>Reinvestment risk/loss of yield: Following an early redemption of the Securities for any reason, holders may be unable to reinvest the redemption proceeds at a rate of return as high as the return on the Securities being redeemed.</p> <p>Issuer optional early redemption: The ability of the Issuer to early redeem the Securities will mean an investor is no longer able to participate in the performance of any Underlying Assets. This feature may limit the market value of the Securities.</p> <p>Settlement expenses: Payments, deliveries and settlement under the Securities may be subject to deduction of taxes and settlement expenses, if applicable.</p> <p>Conditions to settlement: Settlement is subject to satisfaction of all conditions to settlement by the investor.</p> <p>Volatile market prices: The market value of the Securities is unpredictable and may be highly volatile, as it can be affected by many unpredictable factors, including: market interest and yield rates; fluctuations in foreign exchange rates; exchange controls; the time remaining until the Securities mature; economic, financial, regulatory, political, terrorist, military or other events in one or more jurisdictions; changes in laws or regulations; and the Issuer's creditworthiness or perceived creditworthiness.</p> <p>Return linked to performance of an Underlying Asset: The return payable on the Securities is linked to the change in value of the Underlying Asset over the life of the Securities. Any information about the past performance of any Underlying Asset should not be taken as an indication of how prices will change in the future. You will not have any rights of ownership, including, without limitation, any voting rights or rights to receive dividends, in respect of any Underlying Asset.</p> <p>Equity index risks: Securities linked to the performance of equity indices provide investment diversification opportunities, but will be subject to the risk of fluctuations in both equity prices and the value and volatility of the relevant equity index. Securities linked to equity indices may not participate in dividends or any other distributions paid on the shares which make up such indices, accordingly, you may receive a lower return on the Securities than you would have received if you had invested directly in those shares.</p> <p>The Index Sponsor can add, delete or substitute the components of an equity index at its discretion, and may also alter the methodology used to calculate the level of such index. These events may have a detrimental impact on the level of that index, which in turn could have a negative impact on the value of and return on the Securities.</p> <p>Capped return: As the redemption amount is subject to a cap, the value of or return on your Securities may be significantly less than if you had purchased</p>
--	--

		<p>the Underlying Asset(s) directly.</p> <p>Capped return: As the redemption amount is subject to a cap, the return holders may receive is limited.</p> <p>Underlying foreign exchange rates: Securities will be exposed to the performance of one or more underlying foreign exchange rates. Foreign exchange rates are highly volatile and are determined by a wide range of factors including supply and demand for currencies, inflation, interest rates; economic forecasts, political issues, the convertibility of currencies and speculation. The capital invested in the Securities is at risk. Consequently, you may lose the value of your entire investment, or part of it.</p>
